washrooms for all environments

## CASE STUDY

**Client:** Coventry University

**Contractor:** BAM Construction

**Location:** Coventry University Science and Health Building

**Completion Date:** January 2019

The new Science and Health Building consolidates the University's existing science laboratory and health simulation facilities into a new modern multidisciplinary building that will include new healthcare simulation, research and 'super-lab' environments.

The Building offers the latest facilities for teaching and research, to enhance opportunities for continuing education and professional development and to attract the best students and staff to Coventry University.

We are very pleased to have worked alongside the University, and BAM Construction on this £59 million building, that is transforming training opportunities for nurses, paramedics, midwives, and other health professionals.
