CASE STUDY

Client: UoB Secondary School & Sixth Form

Contractor: Willmott Dixon

Location: Birmingham

Completion Date: January 2016

University of Birmingham School and Sixth Form, in partnership with the University of Birmingham's world-leading research and best-practice resources, host an educational environment that focuses on learning without limits. The school, opened September 2015, is a mixed ability, co-educational state school focusing on academic rather than vocational subjects, to prepare pupils for selective universities.

We are proud to have worked alongside Willmott Dixon Construction on this exciting extension to the University of Birmingham's academic education.
