

excelsior[®]

washrooms for all environments

The Project – Lloyds Pharmacy

Refurbish existing washroom facilities at Lloyds Head Quarters.

Work along side Swift Building Services to complete the project.

Specification lead by Pinnegar Haywood Design.

The Challenge

Produce a range of Cubicles, Duct Panels and Vanity units to create an innovative, vibrant space.

Solid surface on site jointing and polishing of oversized, bespoke Solid Surface Vanity tops.

Manage installation from drawings to completion with a dedicated Contracts Manager.

Complete full, detailed survey & provide guidance on discussing feasibility at planning stage.

The Solution

Excelsior Select Range in a kaleidoscopic array of colours has created a stimulating, revitalising washroom environment.

A valiant use of colour conveyed onto the Vanity Unit completed the installation; Magma Range 100% recyclable Compact Density Fibreboard frame with 12mm Hanex Top to suit semi recessed bowl with a 250mm upstand and a 200mm downstand finished off with 20mm square edge access panels.

This Analogous colour scheme proves a break from the norm for washrooms and is testament to the Architect and the combined skills and expertise of Excelsior's trusted team that resulted in such an accomplished finish. combined skills and expertise of Excelsior's trusted team that resulted in such an accomplished finish.
