Flush44 Cubicle Range

WASHROOMS FOR ALL ENVIRONMENTS

Flush44 Cubicle Range

The premium flush fronted cubicle solution

The Flush 44 cubicle range is the genuine 'premium quality' system, offering a sleek flush fronted facade, with surface finishes available in both HPL and Natural Veneer complete with hardwood edges to doors. Allowing the the most discerning specifier complete satisfaction in their selection.

At Excelsior we offer the Flush44 in three standard formats:

1. 2100mm overall propriatory height incorporating a 150mm pedestal leg and SAA box headrail.

2. Full height up to 2700mm as standard floor to ceiling option with 38mm divisions set into a 'U' section floor channel.

3. Full height 2700mm as standard floor to ceiling option with back to back duct panel divisions offering a 100mm service void.

All three formats incorporate Stainless Steel Ironmongery as Standard and are DDA complient with outward opening doors complete with 'D' handles to ease access where doors are set to fall closed.

Flush44 is available in several different surface finishes including High Pressure Laminate and Natural Wood Veneers complete with rebated Hardwood edges to all doors and pilasters.

Typical manufacturing period is 5-6 weeks from receipt of approved drawings and colour selection.

Installation by Excelsior is strongly recommended but not essential as a full set of fixing instructions and technical information is provided with the system.

Ironmongery

1. Large Turn
2. Indicator Faceplate
3. Rise & Fall Hinge

3. Layers of kraft paper impregnated with phenolic resin, to be bonded onto MR core.

HPL - High Pressure Laminate

High pressure laminate (bonded onto a chipboard or MDF substrate. These core materials offer water resistance only (they are not waterproof) offers heat, scratch and impact resistance with edges finished with a colour match or contrast 2mm PVC detail.

Comfortable in school, office, entertainment, health and retail environments alike.

Ironmongery Finish: Stainless Steel as standard.

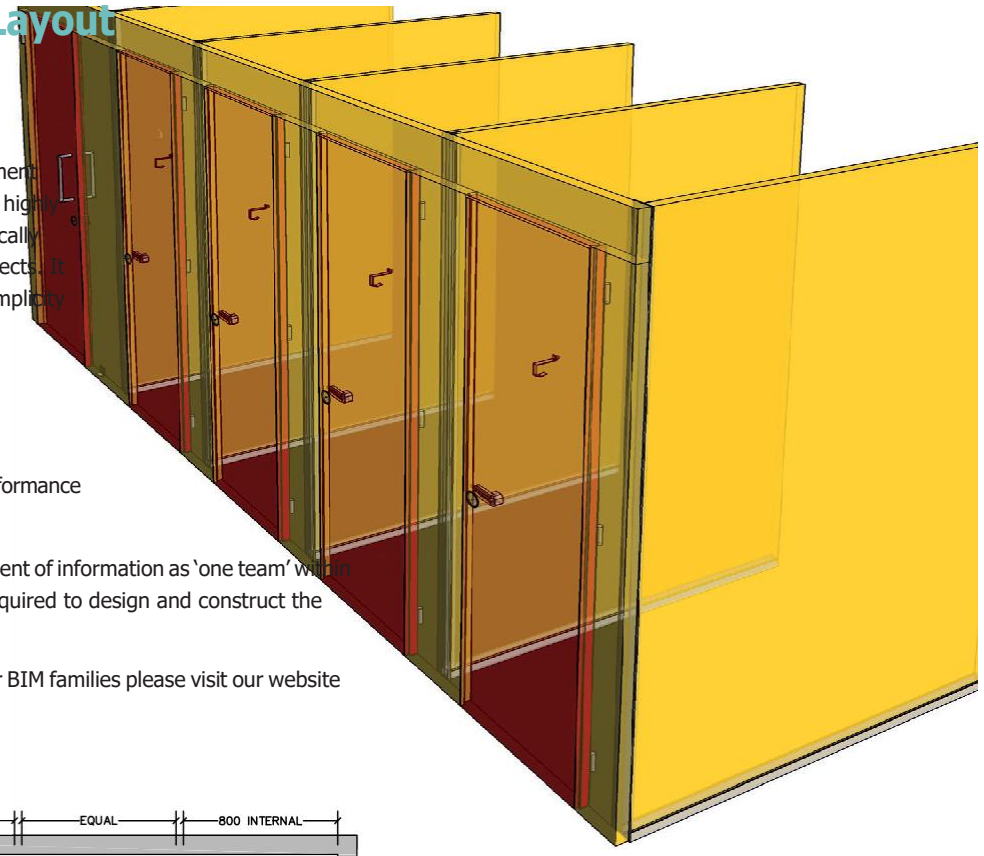
Colour Selections: Excelsior preferred cubicle & washroom colour selection or natural veneer.

Special Notes: Outward openg doors complete with back to back Stainless Steel 'D' Handles.

N.B. Hardwood edges will be light oak as standard which may result in a coulour variance to the face.

We recommend that outward opening doors open onto an adjacent solid wall to prevent overstrain on hinges.

BIM Objects - Typical Layout



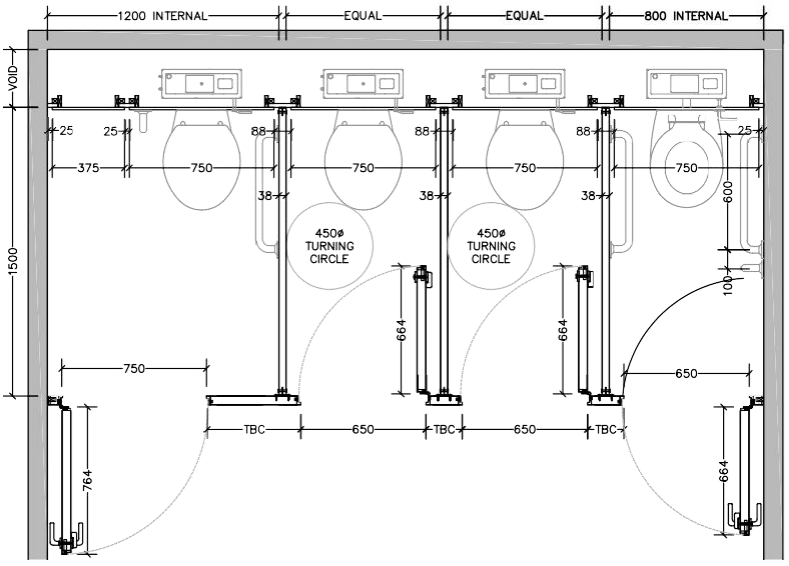
Downloadable BIM Objects

Our BIM Families are a time saving development with fully functional parametric objects. This highly acclaimed 3D model-based process is specifically designed for Infrastructure and Building projects. It offers many benefits to owners that enable simplicity for project management.

- Visualisation of designs
- Simulation of multiple design ideas
- Productivity improvement
- Analysing and testing of application and performance

BIM enables collaborative working; management of information as 'one team' within a digital model holding all the information required to design and construct the project from conception to completion.

If you would like to register and download our BIM families please visit our website www.excelsior-cubicles.co.uk/bim-objects



From creation to installation... you can rest assured
