

Select: Lloyds Pharmacy HQ

Coventry Headquarters under went a full washroom refurb with a bright and stylish fit out. Lloyds Pharmacy recently invested in their Coventry Headquarters building with a full refurbishment, working with Swift Building Services and Pinnegar Haywood Design. The challenge for this project was to elevate the space, making it innovative and vibrant, whilst ensuring the product was fit for purpose to withstand use over time in these busy offices. Our solution was to install our durable Select Range in a kaleidoscopic array of colours. This vibrant colour scheme proves a break from the norm with its exciting and innovative flair. The attractive range is perfect for enhancing commercial offices whilst remaining durable overtime, with each panel mounted with High Pressure Laminate to resist dents, scratches, and water use. Carrying this vibrant colour palette through to the Vanity Units completed this installation.

Bright and vibrant colour palette for innovative office design
